

Experience

Zeta

UX Designer II
SEP '23 - PRESENT

- Crafting banking experience for the next generation of customers on **PayZapp**
- Scaled Zapp Account (former PayZapp Wallet) to **#5** in the industry
- Currently designing AI native products for the next generation of task management on **Tasket**

Now&Me

Junior Product Designer
JAN '23 - SEP '23

- Designed upgraded Web and Mobile experience for mental health on Now&Me
- Implemented a new design system for future upgrades

Mesha

Freelance UX Designer
OCT '22 - DEC '22

- Working with a Web3 startup on their next version of the product
- Ideating new features and updates for employment payroll under web3 ecosystem

Metafic

UX Design Intern
NOV '21 - APR '22

- Worked on Audio based social app for a client from scratch
- Cross collaborated with PM's for ideating features and user flows on this
- Collaborated with other designers on multiple other projects

Education

MSIT Kolkata

B.Tech Computer Science
2018-2022

- Built a strong foundation in problem-solving, logic, and systems thinking through core CS coursework
- Picked up the fundamentals of programming, data structures, and how software actually gets built — shaped how I approach design today

10k Deisgners

Designer in Residence
JUN '22 - SEP '22

- Learned the foundations of design — visual, interaction, and product thinking — from scratch in an intensive bootcamp format
- Upskilled through hands-on projects and critiques, building the base I needed to start designing real products
